

Every month is different

End of season 2022-2023 party

Rondane National Park, Norway, October 2022

Höga Kusten, Sweden, April 2023

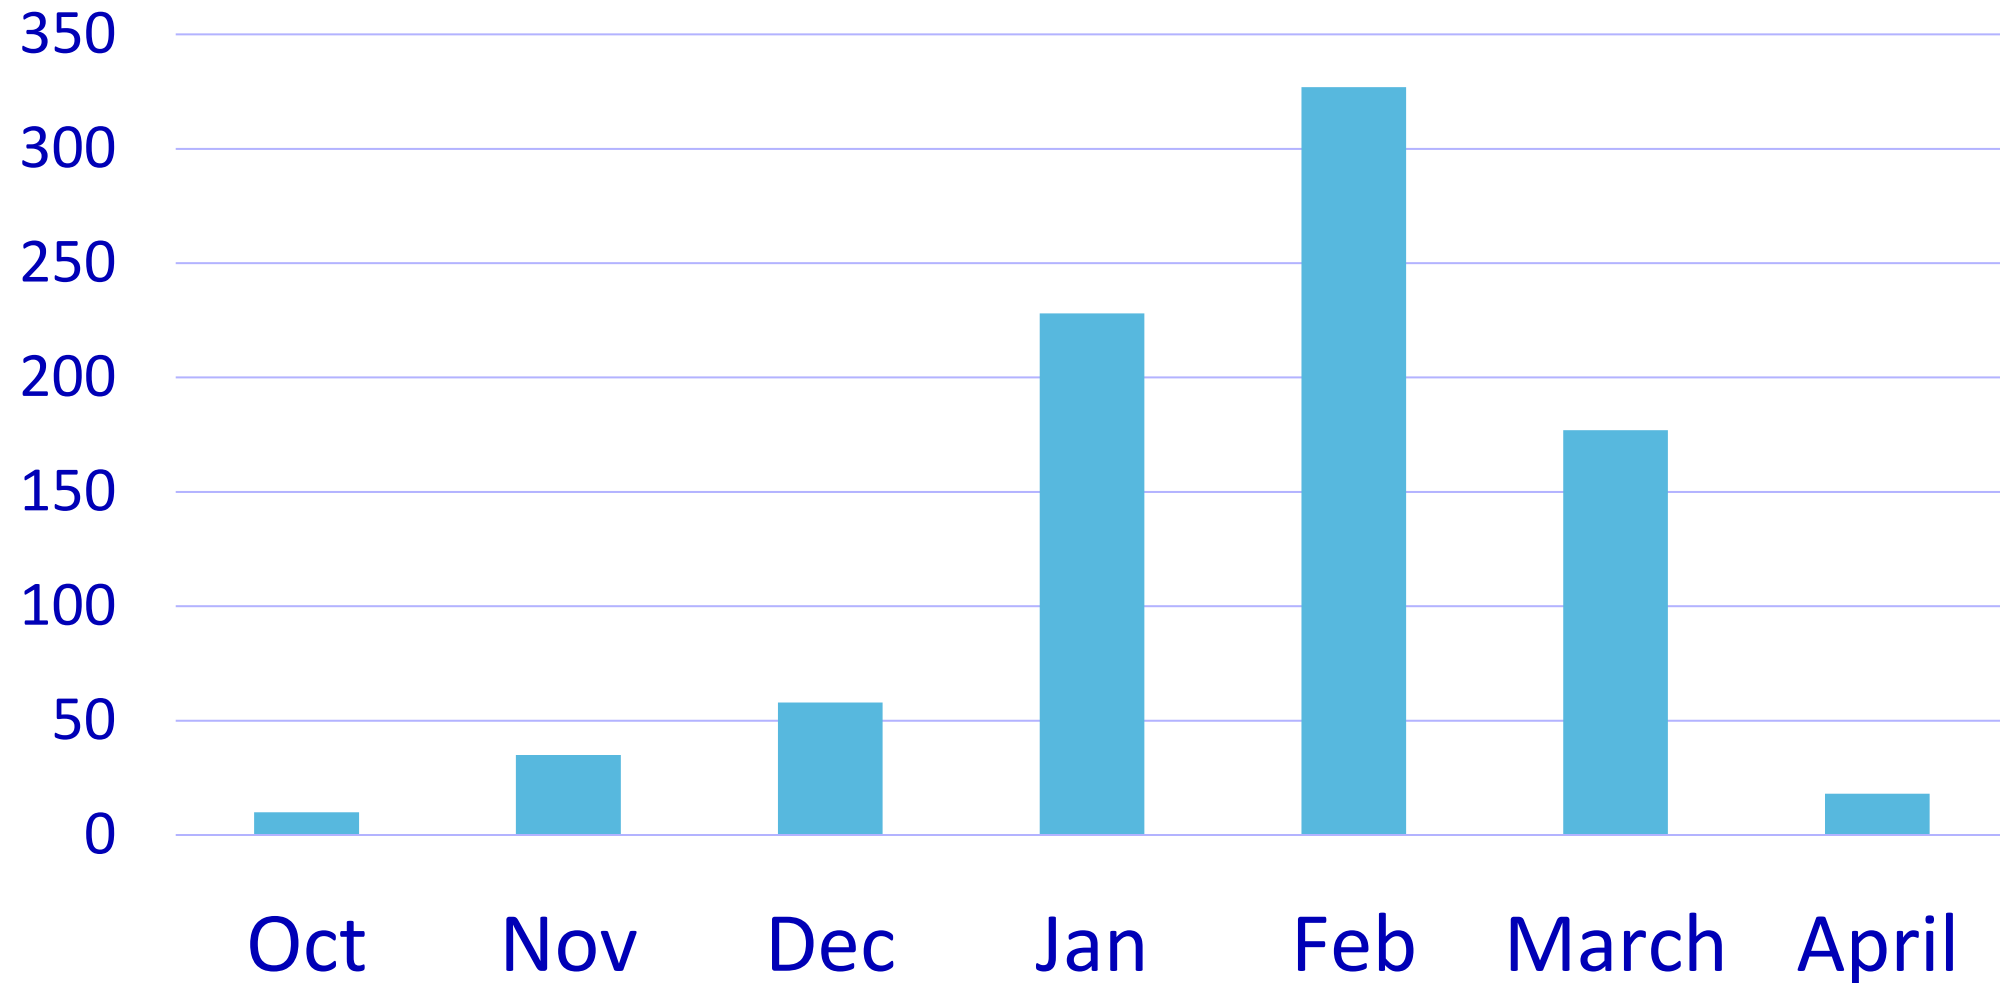

Tours per month, 2022-2023

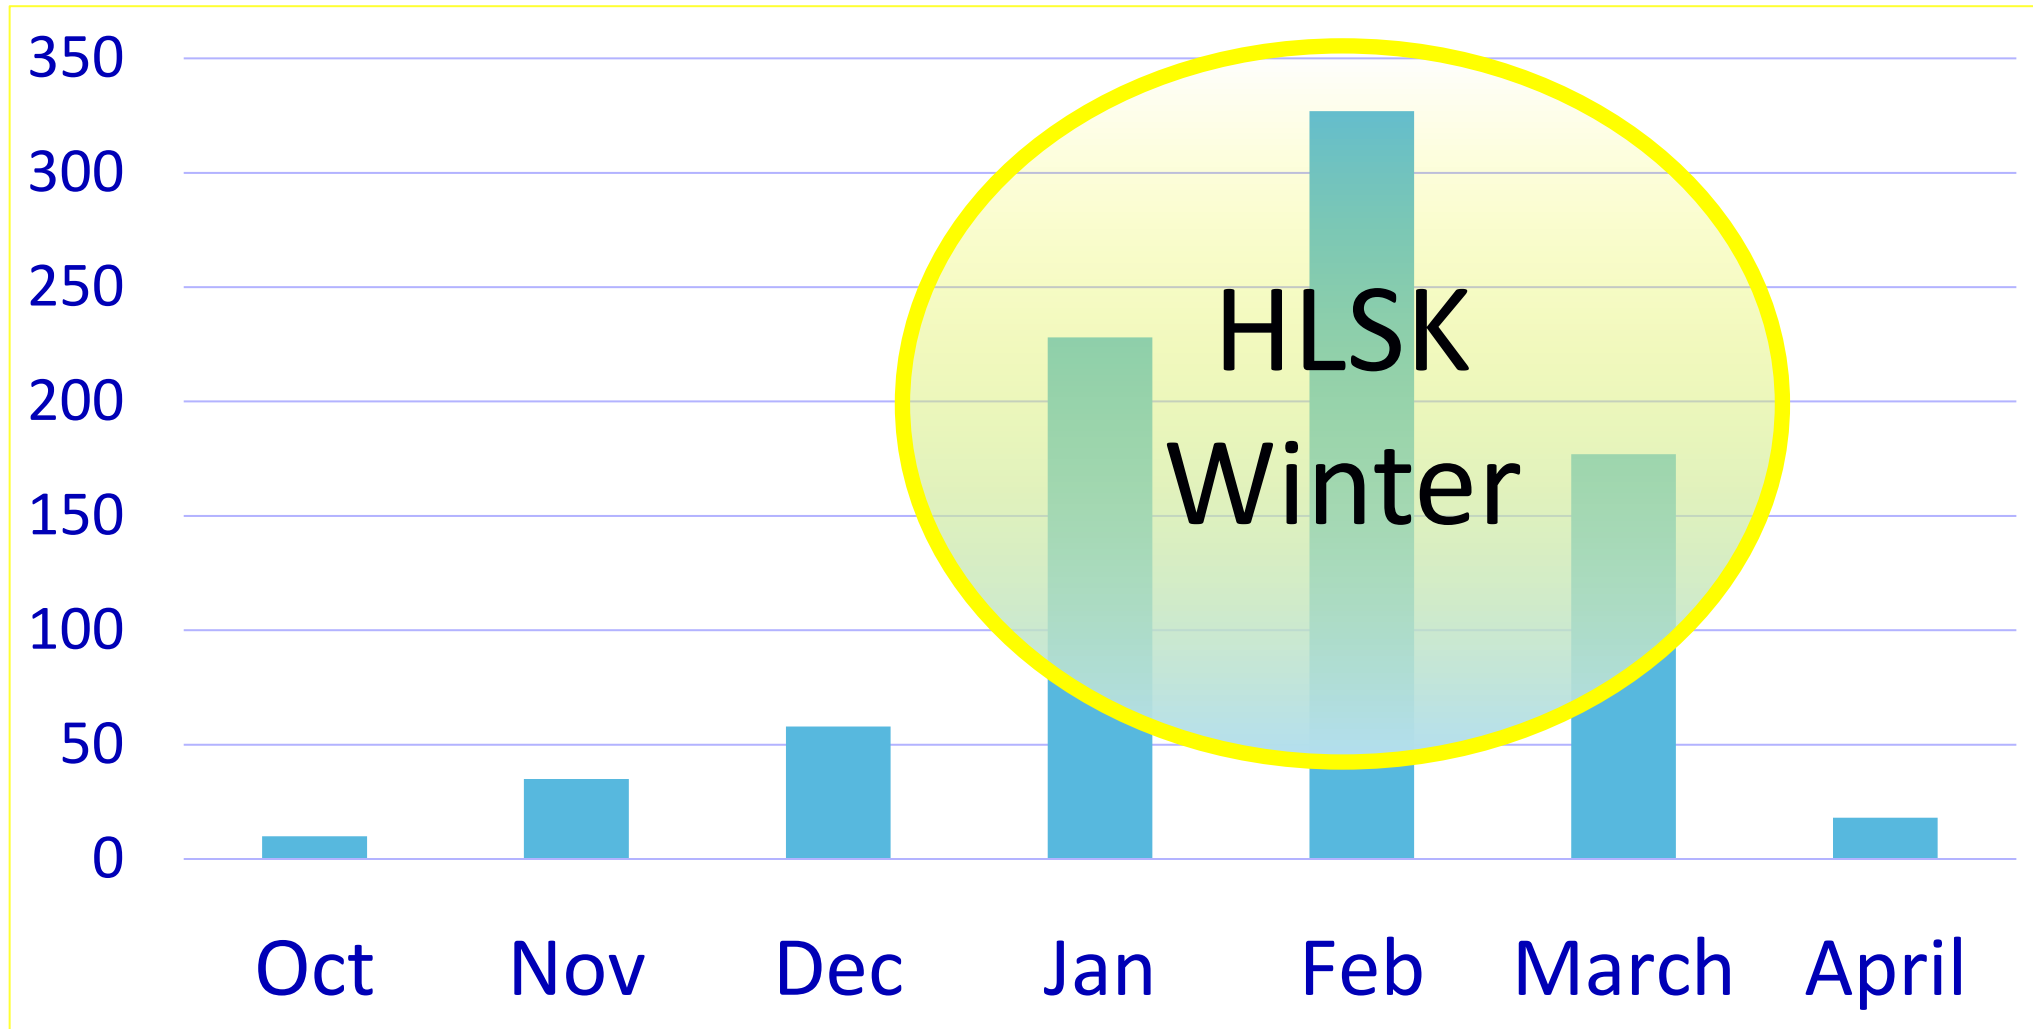

Tours per month, last 5 seasons

Correction for Dec 2022 + Xmas Rob

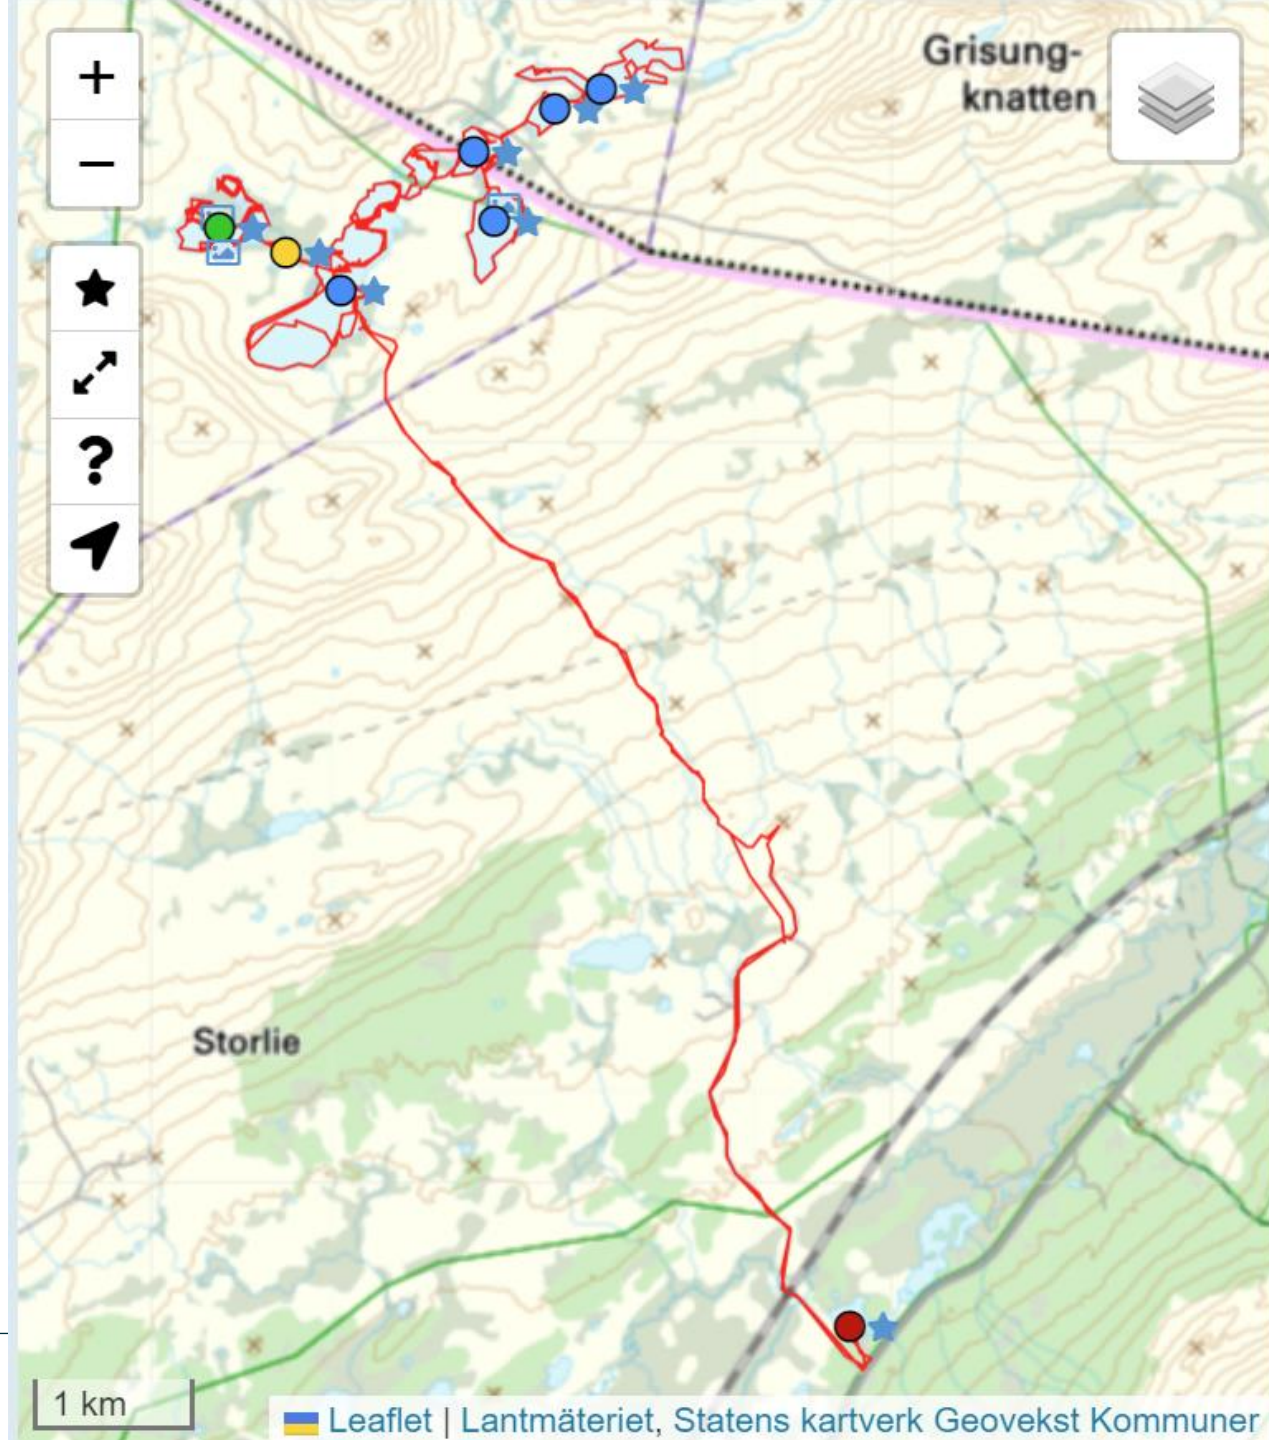

Correction for Dec 2022 + Xmas Rob

October: difficult to find/reach ice

- No fixed date possible
- Almost no isobservationer
- Fulltime job to check weather, satpics,
- Norway experience needed
- Be prepared to bike/hike
- Every day a chanstur

October: difficult to find/reach ice

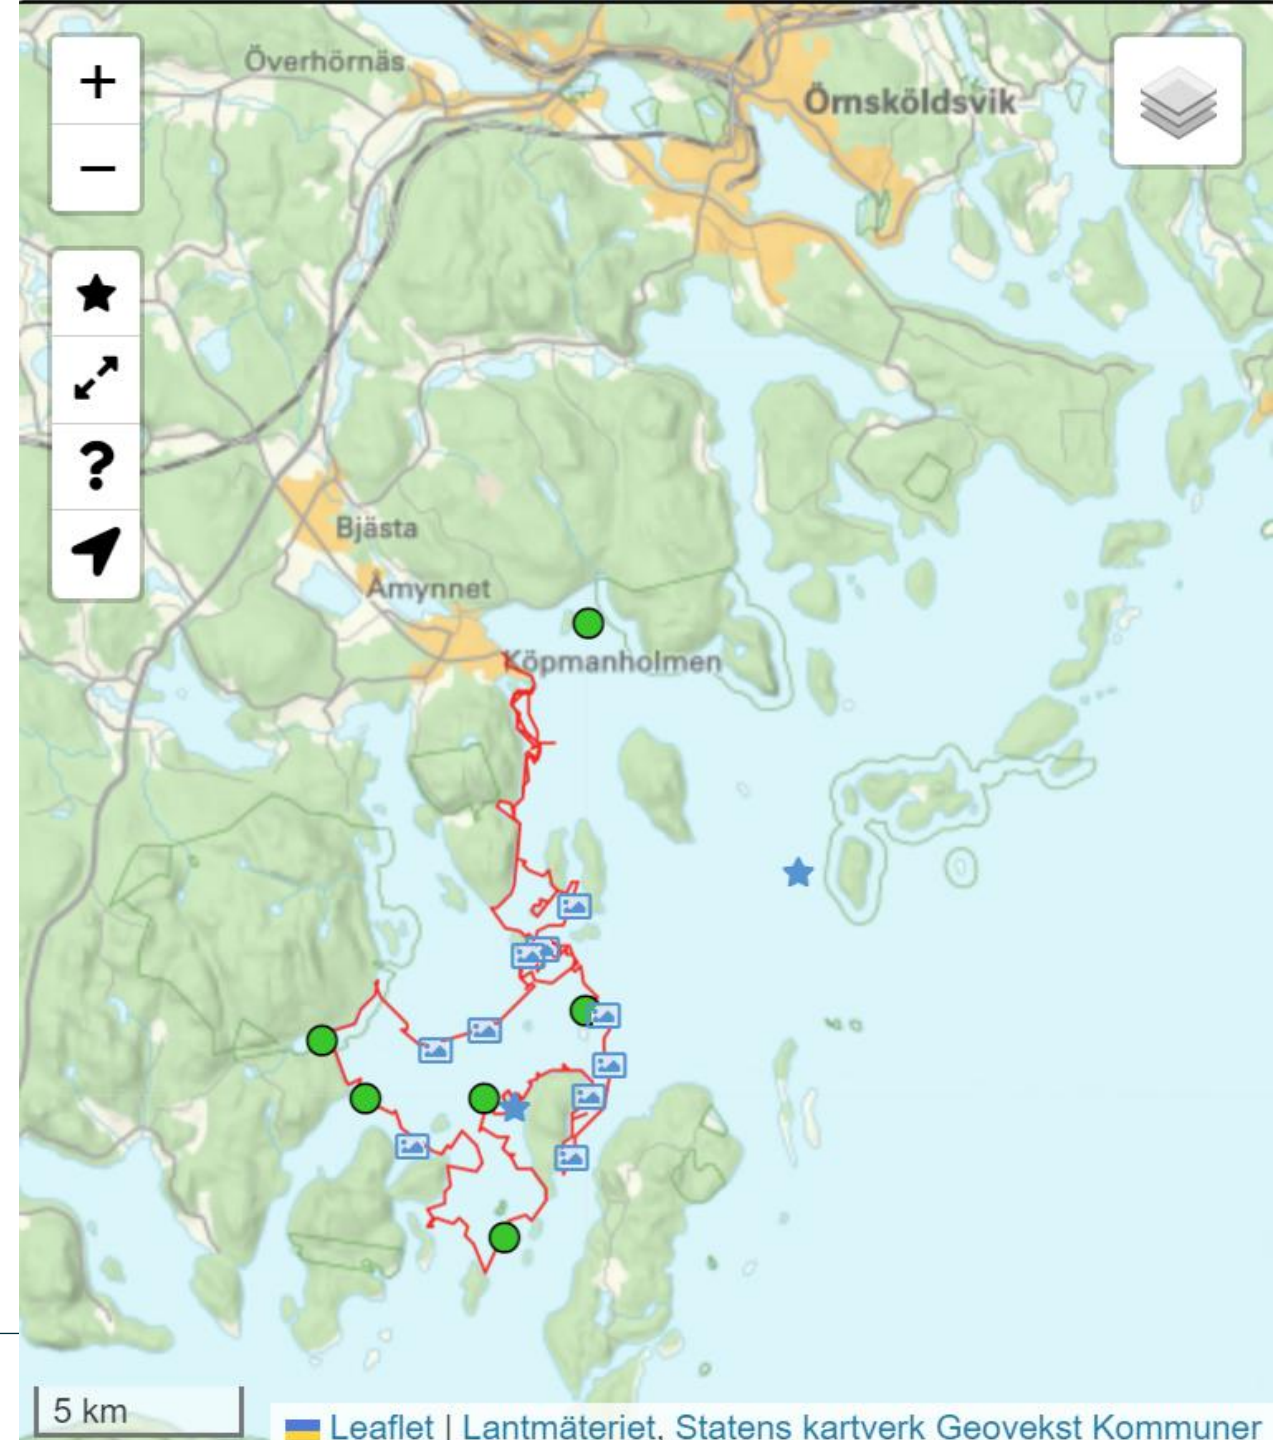

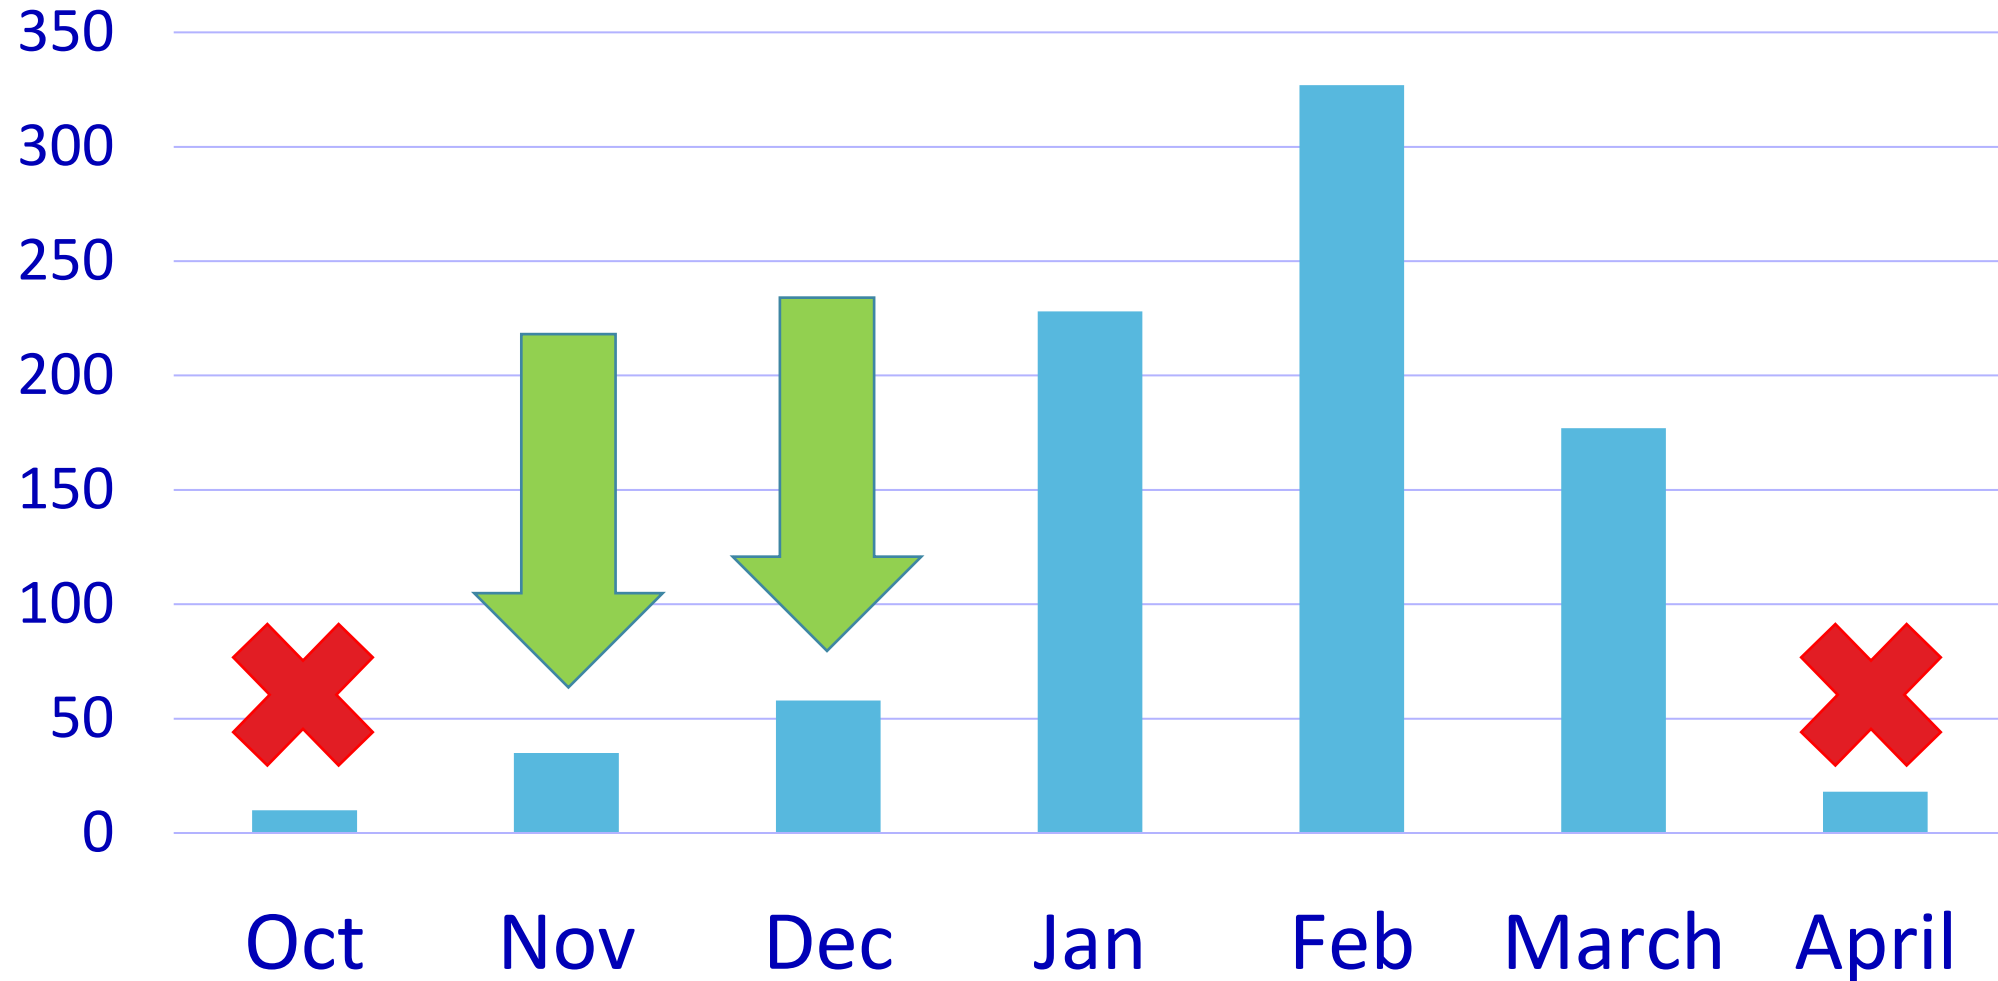

April: either old ice or very risky ice

- Old ice bumpy and frasisig
- New ice only at big lakes / sea
- At sea is open water always nearby
- Sun high up → våris every day
- Wake up at 3:00am
- Big and salt ice experience needed
- Every day a chanstur

April: either old ice or very risky ice

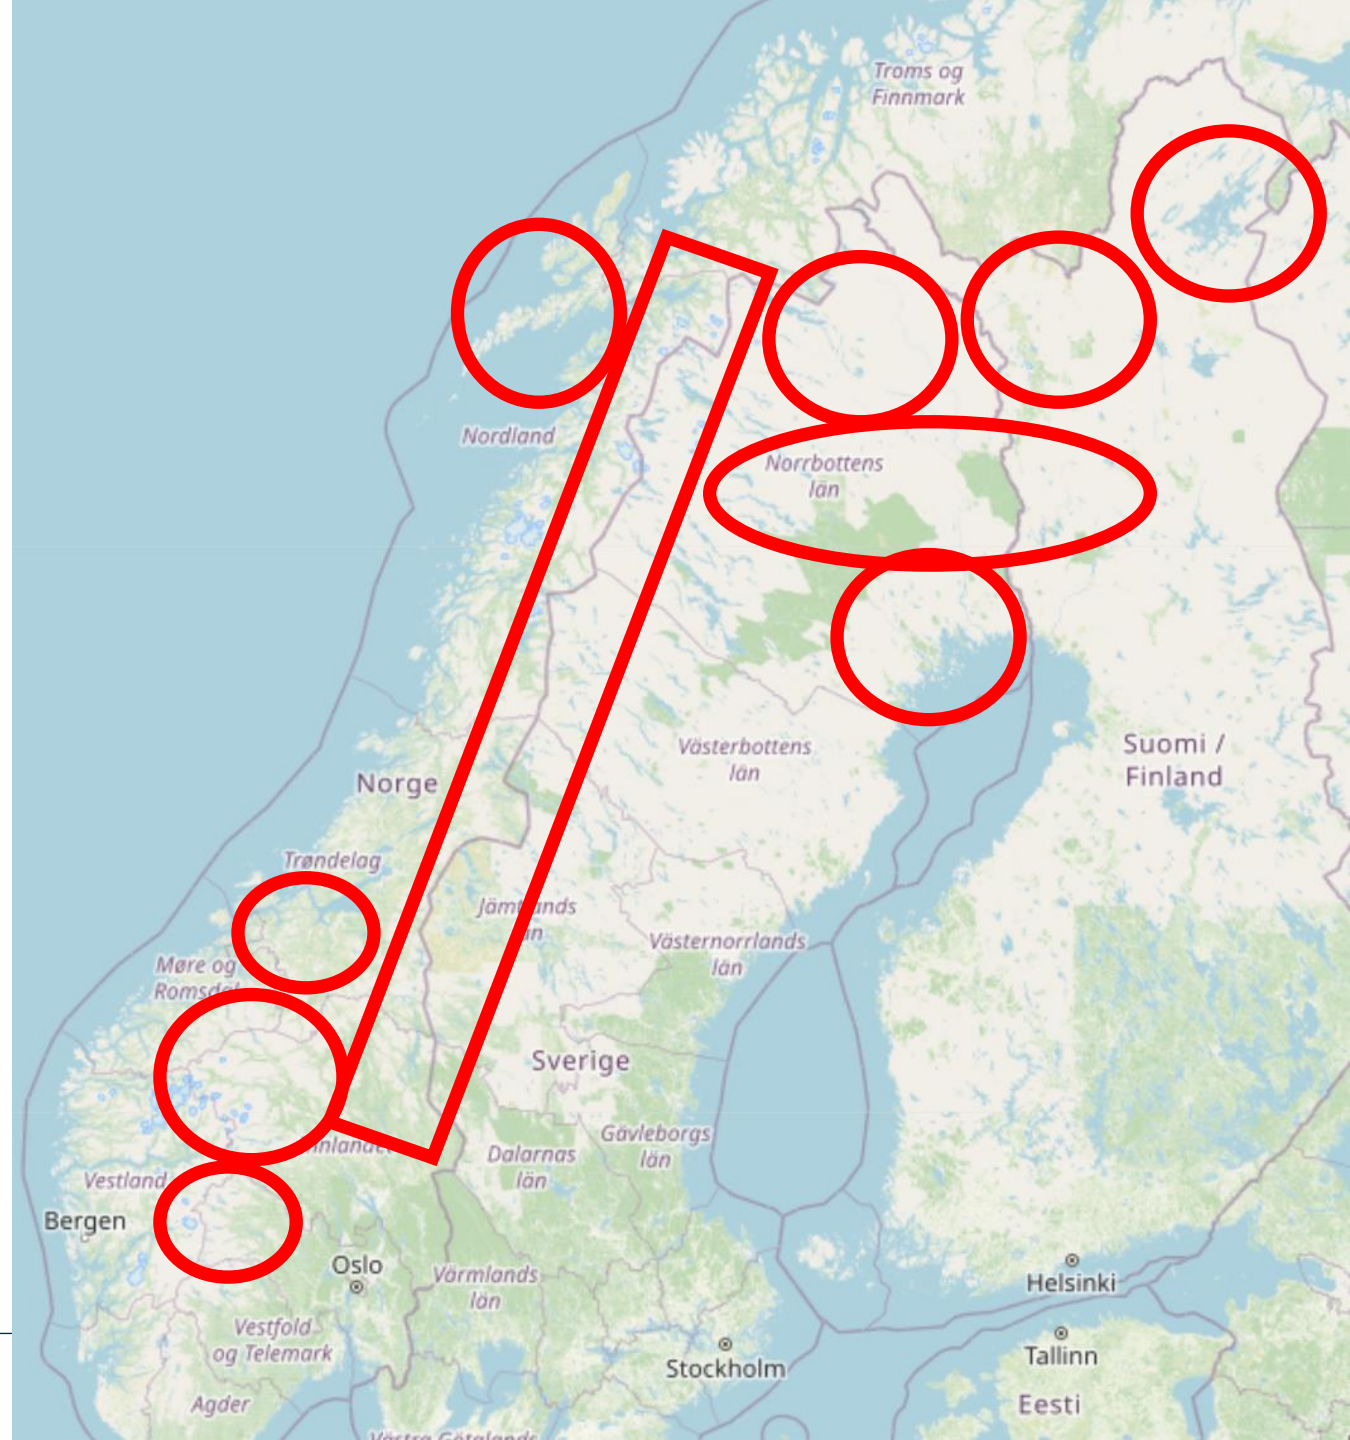

My recommendation: Nov + Dec

November: fjäll or north

- High pressure is guarantee for new black ice
- First isobs coming in
- Flexible date gives best options
- Some old ice as plan B
- Try to take a full (two) week(s)
- Long drives and multiple jumps
- Stunning views
- Amazing areas

Near Lofoten, Atlantic Ocean, Norway

End of November 2022

Lapland, Sweden. Temp -27
November 2022

**Lapland, Sweden. Dying moose
November 2022**

**Mountain lake, Norway
Walk impossible
November 2022**

**Near Narvik, Atlantic Ocean, Norway
November 2022**

December: cozy and perfect for ice foxes

- No big ice yet and not much snow yet
- Short days give time to prepare
- Easy to drive and park in Sweden
- Color Line and Stena Line are luxury
- Walks easier than in November
- Värmland new black almost guaranteed
- Christmas “gezelligheid”
- Opportunity for family skating vacation

Göteborg, Sweden, December 2021

Värmland, Sweden, December 2021

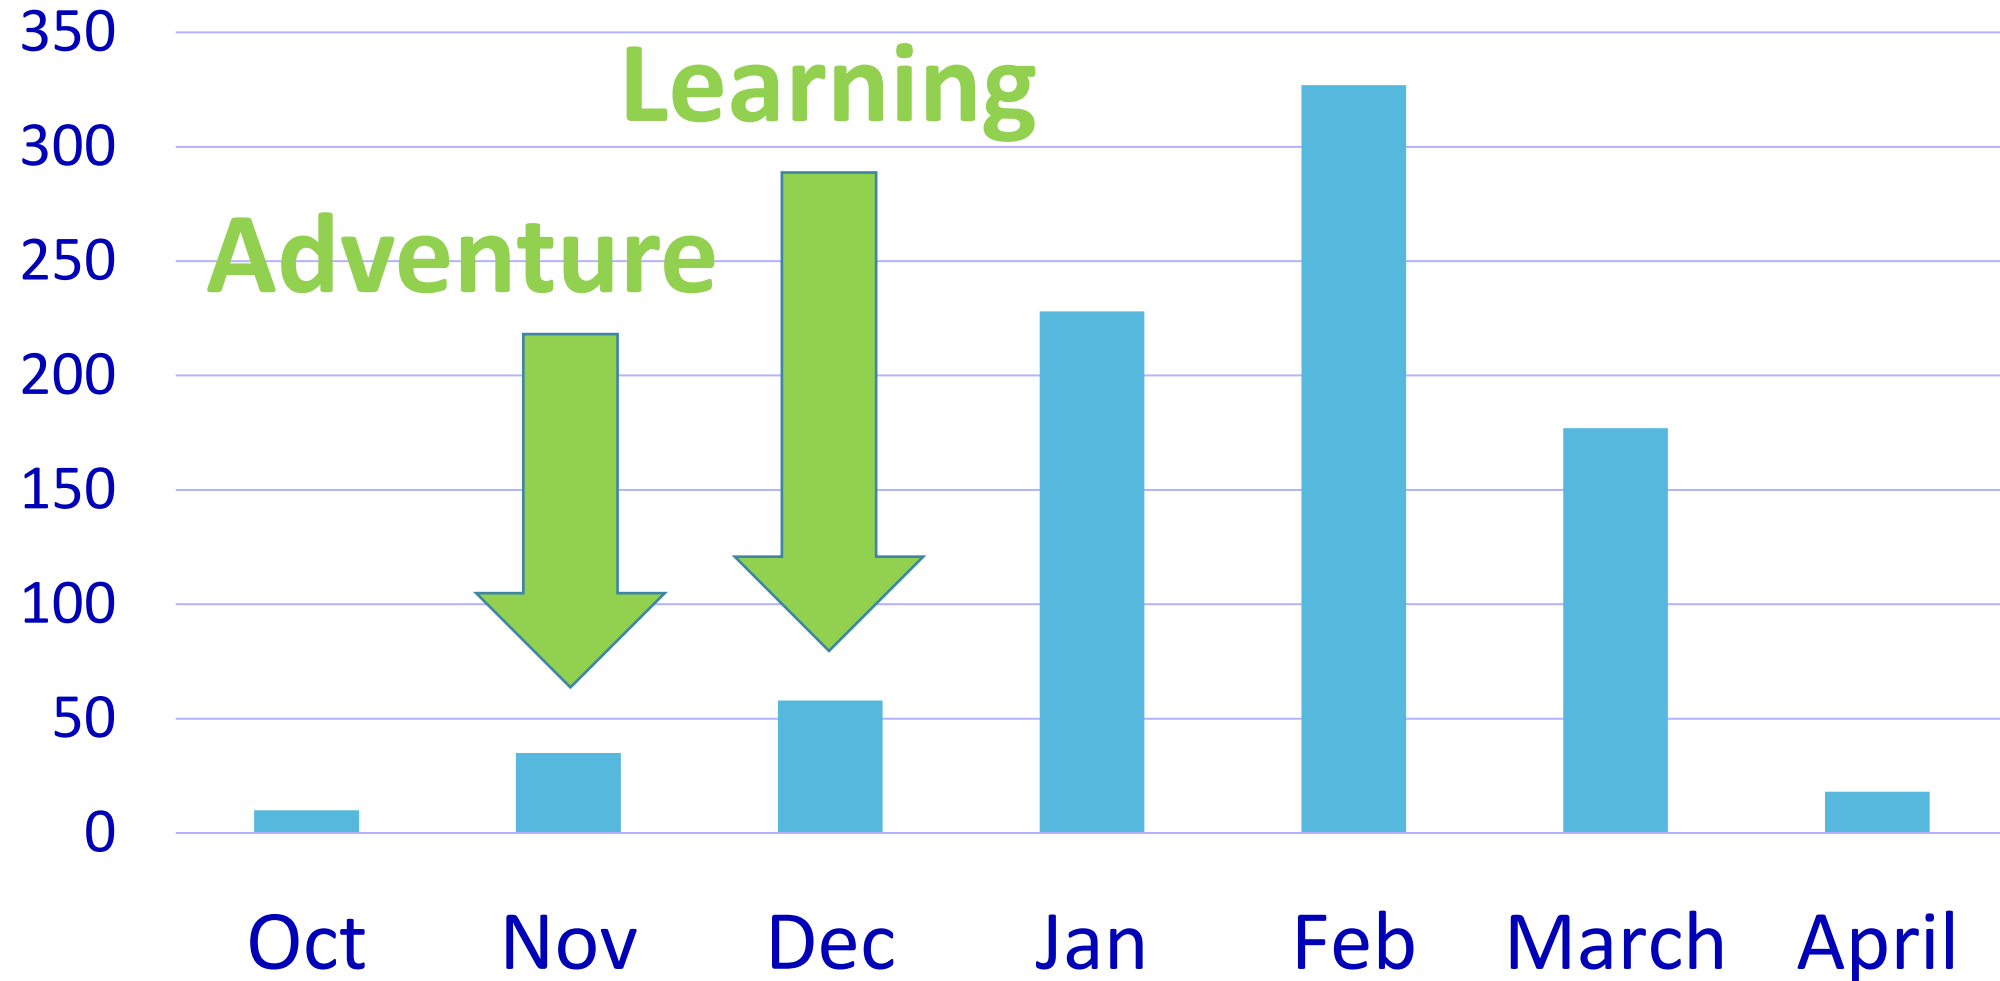

New ice, Värmland, Sweden, December 2021

Ice generation border, Sweden, December 2021

What do YOU want?

**“HLSK leaves half of
the winter unused”**
